PIZZA INN HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated financial statements of Pizza Inn Holdings, Inc. (the "Company") have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in the financial statements have been omitted pursuant to such rules and regulations. The unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended June 26, 2011.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to fairly present the Company's financial position and results of operations for the interim periods reflected. Except as noted, all adjustments contained herein are of a normal recurring nature. Results of operations for the fiscal periods presented herein are not necessarily indicative of fiscal year-end results.

(1) **Summary of Significant Accounting Policies**

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All appropriate intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Fiscal Quarters

Fiscal first quarters ended September 25, 2011 and September 26, 2010, both contained 13 weeks.

Revenue Recognition

The Company recognizes revenue when products are delivered and the customer takes ownership and assumes risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists and the sales price is fixed or determinable. The Company's Norco division sells food and supplies to franchisees on trade accounts under terms common in the industry. Food and supply revenue are recognized upon delivery of the product. Norco sales are reflected under the caption "Food and supply sales." Shipping and handling costs billed to customers are recognized as revenue.

Franchise revenue consists of income from license fees, royalties, and area development and foreign master license fees. License fees are recognized as income when there has been substantial performance under the agreement by both the franchisee and the Company. Domestic license fees are generally recognized at the time the restaurant is opened. Foreign master license fees are generally recognized upon execution of the agreement as all material services relating to the sale have been substantially performed by the Company and the fee has been collected. Royalties are recognized as income when earned.

Stock-Based Compensation

We account for stock options using the fair value recognition provisions of the authoritative guidance on share-based payments.

The Company uses the Black-Scholes formula to estimate the value of stock-based compensation for options granted to employees and directors and expects to continue to use this acceptable option valuation model in the future. The authoritative guidance also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow.

Use of Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company's management to make estimates and assumptions that affect its reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent liabilities. The Company bases its estimates on historical experience and other various assumptions that it believes are reasonable under the circumstances. Estimates and assumptions are reviewed periodically and actual results could differ materially from estimates.

Reclassification

Certain items have been reclassified in the prior year financial statements to conform to current year presentation.

(2) Long-Term Debt

On January 11, 2010, the Company entered into a Loan Agreement with Amegy Bank National Association (“Amegy”) providing for a \$2.0 million revolving credit facility (with a \$250 thousand letter of credit subfacility) and a \$1.0 million term loan facility. On January 10, 2011, the Company and Amegy entered into a First Amendment to Loan Agreement increasing the Company's term loan facility and amending certain other provisions of the Loan Agreement. On October 26, 2011, the Company and Amegy entered into an Amended and Restated Loan Agreement further increasing the Company's term loan facility and amending certain other provisions of the Loan Agreement. As amended, the Amegy credit facility provides a \$2.0 million revolving credit facility (with a \$250 thousand letter of credit subfacility) and a \$4.0 million term loan facility, in addition to \$0.7 million in existing term loans.

The Company may borrow, repay and reborrow under the Amegy revolving credit facility through January 11, 2013, at which time all amounts outstanding under the revolving credit facility mature. Availability under the revolving credit facility is limited by advance rates on eligible inventory and accounts receivable. Interest on indebtedness from time to time outstanding under the revolving credit facility is computed at Amegy's prime rate and is payable monthly. A commitment fee of 0.25% per annum is payable quarterly on the average unused portion of the revolving credit facility.

Amegy has agreed to make term loans under the term facility through October 31, 2012. Advances for such term loans are limited by a percentage of the costs of equipment and leasehold improvements for new restaurant locations of the Company and may not be reborrowed after repayment. Interest only is payable monthly on each term loan for up to 120 days after the initial advance. Thereafter, each term loan is payable in 36 equal monthly installments of principal plus accrued interest. Interest on each term loan accrues at Amegy's prime rate plus 1% or, at the Company's option, a fixed rate determined by Amegy. A fee of 0.5% of the total term loan facility was paid at closing.

The obligations of the Company under the Loan Agreement are guaranteed by each of the subsidiaries of the Company and are secured by a pledge of all of the stock of such subsidiaries as well as security interests in substantially all of the assets of the Company and its subsidiaries including, but not limited to, accounts receivable, inventory and equipment. The Amended and Restated Loan Agreement contains various affirmative covenants which, among other things, require the Company to provide Amegy with certain financial statements, compliance statements, reports and other information. The Amended and Restated Loan Agreement also contains various negative covenants which, among other things, require the Company to maintain certain financial ratios and restrict the ability of the Company to engage in certain activities. The Company is in compliance with all covenants as of the reporting date. If an event of default occurs under the Amended and Restated Loan Agreement, Amegy may terminate all commitments under the credit facilities and declare all unpaid principal, interest and other amounts owing under the credit facilities to be immediately due and payable. As of September 25, 2011 the balance on the term loan facility was \$0.7 million with an interest rate of 6% and the balance on the revolving credit facility was zero with an interest rate of 5%.

(3) Commitments and Contingencies

On April 22, 2009 the Company's board of directors amended the stock purchase plan first adopted on May 23, 2007 and previously amended on June 2, 2008, to increase the number of shares of common stock the Company may repurchase to a total of 3,016,000 shares. As of September 25, 2011, there were 848,425 shares available to be repurchased under the plan.

The Company is subject to other claims and legal actions in the ordinary course of its business. The Company believes that all such claims and actions currently pending against it are either adequately covered by insurance or would not have a material adverse effect on the Company's annual results of operations, cash flows or financial condition if decided in a manner that is unfavorable to the Company.

(4) **Stock-Based Compensation**

For the quarter ended September 25, 2011, we recognized stock-based compensation expense of \$42,700. As of September 25, 2011, unamortized stock-based compensation expense was \$0.2 million.

The following table summarizes the Company's outstanding stock options for the three months ended September 25, 2011 and September 26, 2010:

	Three Months Ended	
	September 25, 2011	September 26, 2010
Outstanding at beginning of year	604,036	565,510
Granted	76,432	20,996
Exercised	-	-
Forfeited/Canceled/Expired	-	-
Outstanding at end of period	<u>680,468</u>	<u>586,506</u>
Exercisable at end of period	<u>501,702</u>	<u>414,010</u>

(5) **Earnings per Share (EPS)**

The following table shows the reconciliation of the numerator and denominator of the basic EPS calculation to the numerator and denominator of the diluted EPS calculation (in thousands, except per share amounts).

	Three Months Ended			
	September 25, 2011		September 26, 2010	
	Diluted	Basic	Diluted	Basic
Income from continuing operations	\$ 329	\$ 329	\$ 145	\$ 145
Discontinued operations	(16)	(16)	(16)	(16)
Net income available to common stockholders	<u>\$ 313</u>	<u>\$ 313</u>	<u>\$ 129</u>	<u>\$ 129</u>
Weighted average common shares	8,011	8,011	8,011	8,011
Dilutive stock options	117	-	-	-
Average common shares outstanding	<u>8,128</u>	<u>8,011</u>	<u>8,011</u>	<u>8,011</u>
Income from continuing operations per share	\$ 0.04	\$ 0.04	\$ 0.02	\$ 0.02
Discontinued operations loss per common share	-	-	-	-
Net income per common share	<u>\$ 0.04</u>	<u>\$ 0.04</u>	<u>\$ 0.02</u>	<u>\$ 0.02</u>

For the three months ended September 25, 2011, options to purchase 40,000 shares of common stock at exercise prices of \$3.17 were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common shares for the period. For the quarter ended September 26, 2010, options to purchase 565,510 shares of common stock at exercise prices ranging from \$1.90 to \$3.17 per share were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common shares for the period.

(6) **Closed restaurants and discontinued operations**

The authoritative guidance on "Accounting for the Impairment or Disposal of Long-Lived Assets," requires that discontinued operations that meet certain criteria be reflected in the statement of operations after results of continuing operations as a net amount. This guidance also requires that the operations of the closed restaurants, including any impairment charges, be reclassified to discontinued operations for all periods presented.

The authoritative guidance on “*Accounting for Costs Associated with Exit or Disposal Activities*,” requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. This authoritative guidance also establishes that fair value is the objective for initial measurement of the liability.

The Company closed two of its restaurants in Houston, Texas during the quarter ended September 23, 2007. The results of operations for these two restaurants are reported as discontinued operations in the Consolidated Statement of Operations. No provision for impairment was required to be taken at that time because the impairment taken in the fiscal year ended June 24, 2007, reduced the carrying value of the properties to their estimated net realizable value (proceeds less cost to sell). During the fourth quarter of fiscal 2010, the Company entered into a lease buy-out of one of these locations for \$150,000 which eliminated all future obligations under this lease. The estimated net realizable value for the remaining location remains unchanged. This property is on the market for sub-lease. Because we believe that the property will sub-lease at or above the current lease rates, we have not reserved any additional costs related to our obligations under this non-cancelable lease.

(7) **Income Taxes**

Management re-evaluates the deferred tax asset each quarter and believes that it is more likely than not that the net deferred tax asset of \$0.8 million will be fully realized based on the Company’s recent history of pre-tax profits and the expectation of future taxable income as well as the future reversal of existing temporary differences. During the three months ended September 25, 2011 and September 26, 2010, the Company provided \$170,000 and \$75,000, respectively in net tax expense. In determining this amount, the Company made its best estimate of the effective tax rate expected to be applicable for the full fiscal year. The rate so determined was used to provide for income taxes on a current year to date basis.

(8) **Segment Reporting**

Summarized in the following tables are net sales and operating revenues, operating income and geographic information (revenues) for the Company’s reportable segments for the three month period ended September 25, 2011 and September 26, 2010 (in thousands). Operating income reported below excludes interest expense, income tax provision and discontinued operations.

	Three Months Ended	
	September 25, 2011	September 26, 2010

Foreign countries	246	219
Consolidated total	<u>\$ 11,147</u>	<u>\$ 10,632</u>

(1) Company stores that were closed are included in discontinued operations in the accompanying Condensed Consolidated Statement of Operations.

(2) Does not include full allocation of corporate administration.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements and accompanying notes appearing elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended June 26, 2011, and may contain certain forward-looking statements that are based on current management expectations. Generally, verbs in the future tense and the words "believe," "expect," "anticipate," "estimate," "intends," "opinion," "potential" and similar expressions identify forward-looking statements. Forward-looking statements in this report include, without limitation, statements relating to our business objectives, our customers and franchisees, our liquidity and capital resources, and the impact of our historical and potential business strategies on our business, financial condition, and operating results. Our actual results could differ materially from our expectations. Further information concerning our business, including additional factors that could cause actual results to differ materially from the forward-looking statements contained in this Quarterly Report on Form 10-Q, are set forth in our Annual Report on Form 10-K for the year ended June 26, 2011. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. The forward-looking statements contained herein speak only as of the date of this Quarterly Report on Form 10-Q and, except as may be required by applicable law, we do not undertake, and specifically disclaim any obligation to, publicly update or revise such statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Results of Operations

Overview

The Company operates and franchises pizza buffet, delivery/carry-out and express restaurants domestically and internationally under the trademark "Pizza Inn" and operates one domestic fast casual restaurant ("Pie Five Units") under the trademark "Pie Five Pizza Company." We provide or facilitate food, equipment and supply distribution to our domestic and international system of restaurants through our Norco Restaurant Services Company ("Norco") division and through agreements with third party distributors. At September 25, 2011, the Pizza Inn trademarked system consisted of 297 restaurants, including four Company-owned restaurants and 293 franchised restaurants. The 217 domestic restaurants were comprised of 141 buffet restaurants ("Buffet Units"), 31 delivery/carry-out restaurants ("Delco Units") and 45 express restaurants ("Express Units"). The 80 international franchised restaurants were comprised of 17 buffet restaurants, 54 delivery/carry-out restaurants and 9 express restaurants. Domestic restaurants were located predominantly in the southern half of the United States, with Texas, North Carolina, Arkansas and Mississippi accounting for approximately 34%, 17%, 9% and 8%, respectively, of the total number of domestic restaurants.

On September 25, 2011, we completed a corporate reorganization creating a holding company structure. The reorganization was implemented through an agreement and plan of merger under Section 351.448 of The General Corporation Law of the State of Missouri, which did not require a vote of the shareholders. As a result of the reorganization, the previous parent company, Pizza Inn, Inc., is now a wholly owned subsidiary of the new parent company, Pizza Inn Holdings, Inc. In the reorganization, each issued and outstanding share of common stock of Pizza Inn, Inc. was converted into a share of common stock of the Company, with the same designations, rights, qualifications, powers, preferences, qualifications, limitations and restrictions, and without any action being required on the part of holders of shares of Pizza Inn, Inc. common stock or any exchange of stock certificates. Shares of the Company's common stock were substituted for the shares of common stock of Pizza Inn, Inc. listed on The NASDAQ Global Select Market and continue to trade under the same "PZZI" symbol but with a new CUSIP Number (725846109).

In connection with the reorganization, Pie Five Pizza Company, Inc. and PIBC Holdings, Inc. were also organized as direct subsidiaries of the new holding company. Pie Five Pizza Company, Inc. was created to provide separation of the operating concepts and provide a platform for franchising the Pie Five concept. PIBC Holdings, Inc. will hold, through its subsidiaries, the liquor licenses for both the Pizza Inn and Pie Five brands.

Basic and diluted income per common share increased \$0.02 to \$0.04 for the three month period ended September 25, 2011 compared to the \$0.02 in the comparable period in the prior fiscal year. Net income for the three month period ended September 25, 2011 increased \$0.2 million to \$0.3 million compared to the comparable period in the prior fiscal year, on revenues of \$11.1 million for the three month period ended September 25, 2011 and \$10.6 million for the comparable period in the prior fiscal year. Earnings before interest, taxes, depreciation and amortization (“EBITDA”) increased 5.4%, or \$35,000, to \$683,000 compared to \$648,000 for the comparable period in the prior fiscal year.

Management believes that key performance indicators in evaluating financial results include domestic chain-wide retail sales and the number and type of operating restaurants. The following table summarizes these key performance indicators.

	Three Months Ended	
	September 25, 2011	September 26, 2010
Domestic retail sales of Buffet Units (in thousands)	\$ 26,401	\$ 26,666

Average number of domestic Delco Units	32	32
Average number of domestic Express Units	45	47
Average number of domestic Pie Five Units	1	-

Revenues

Currently our revenues are derived from restaurant operations, sales of food, paper products and supplies by Norco to franchisees, franchise royalties and franchise fees. Our financial results are dependent in large part upon the pricing and cost of these products and supplies to franchisees, and the level of chain-wide retail sales, which are driven by changes in same store sales and restaurant count.

Total revenues for the three month period ended September 25, 2011 increased 4.8%, or \$0.5 million, to \$11.1 million from \$10.6 million the same period in the prior fiscal year. Food and supply sales increased to \$8.9 million compared to \$8.7 million the same period in the prior fiscal year. Franchise revenue decreased by \$0.1 million while restaurant sales increased \$0.4 million primarily due to the opening of two new Company stores in fiscal 2011.

Food and Supply Sales

Food and supply sales by Norco include food and paper products and other distribution revenues. Food and supply sales for the three month period ended September 25, 2011 increased 2.3%, or \$0.2 million, to \$8.9 million from \$8.7 million in the same period in the prior fiscal year. Domestic food and paper sales accounted for the increase, driven primarily by a 24.3% increase in cheese prices compared to the same period in the prior fiscal year.

Franchise Revenue

Franchise revenue, which includes income from domestic and international royalties and license fees, decreased 7.4%, or \$0.1 million, for the three month period ended September 25, 2011 compared to the comparable period for the prior fiscal year. The decrease was primarily due to higher franchise fees in the prior year, including the signing of a new area development agreement with an existing franchise area developer.

Restaurant Sales

Restaurant sales, which consist of revenue generated by Company-owned restaurants, increased 42.8%, or \$0.4 million, to \$1.3 million for the three month period ended September 25, 2011 compared to \$0.9 million for the comparable period in the prior fiscal year. This increase was primarily due to the opening of three new stores in fiscal 2011, offset by the closing of one store in each of the first fiscal quarters of 2011 and 2012. The following chart details revenues at the Company-owned restaurants by concept (in thousands):

	Three Months Ended	
	September 25, 2011	September 26, 2010
Pizza Inn	\$ 1,062	\$ 905
Pie Five	230	-
Restaurant sales	<u>\$ 1,292</u>	<u>\$ 905</u>

Costs and Expenses

Cost of Sales

Cost of sales, which primarily includes materials and distribution fees directly related to food and supply sales and labor and general and administrative expenses directly related to restaurant sales, increased 6.3%, or \$0.5 million, to \$9.2 million for the three month period ended September 25, 2011 compared to \$8.7 million for the comparable period for the prior fiscal year. This increase in costs was associated primarily with the new Company stores opened in August, 2010, December, 2010 and June 2011 and higher direct costs associated with food and supply sales.

Franchise Expenses

Franchise expenses include selling, general and administrative expenses directly related to the sale and continuing service of domestic and international franchises. These expenses decreased \$71,000 for the three month period ended September 25, 2011, compared to the comparable periods in the prior fiscal year primarily due to lower training costs and a reduction in outside services.

General and Administrative Expenses

General and administrative expenses increased \$0.1 million to \$0.9 million, for the three month period ended September 25, 2011 compared to \$0.8 million for the comparable period for the prior fiscal year primarily as the result of legal and other expenses relating to the Company reorganization into a holding company structure.

Costs Associated with Store Closure

The Company closed its Plano, Texas location during the first fiscal quarter of fiscal 2011 and recorded a \$0.3 million non-recurring entry attributable to a change in estimated useful life of the equipment and leasehold improvements. The decision to close this location at the end of the initial lease term, rather than exercising the available extension option, was based on the unit's weak historical financial performance driven by unfavorable lease terms and the continued unfavorable lease terms of the option period. A portion of the equipment and the store management from this location were relocated to the new Company store that opened in December, 2010 in a nearby trade area in Lewisville, Texas. The new Lewisville store is located in a demographically more desirable area and has more favorable lease terms than the closed Plano location.

Provision for Bad Debts

Provision for bad debt expense remained unchanged at \$15,000 for the three month period ended September 25, 2011 compared to the same period of the prior year.

Interest Expense

Interest expense increased \$6,000 for the three month period ended September 25, 2011 compared to the comparable periods in the prior fiscal year due to a higher average balance on term loans used to finish out new Company stores.

Provision for Income Tax

For the three month period ended September 25, 2011, income tax expense of \$0.2 million was calculated on an effective income tax rate that is consistent with the statutory U.S. federal income tax rate of 34% adjusted for state income tax effects and permanent difference items. Management believes that future operations will generate sufficient taxable income, along with the reversal of temporary differences, to fully realize the net deferred tax asset of \$0.8 million.

Discontinued Operations

Discontinued operations include losses from Company-owned stores in Houston, Texas closed during the quarter ended September 23, 2007.

Restaurant Openings and Closings

The following charts summarize restaurant activity for the three month period ended September 25, 2011 and September 26, 2010:

Three months ended September 25, 2011

	<u>Beginning of Period</u>	<u>Opened</u>	<u>Closed</u>	<u>End of Period</u>
Domestic:				
Buffet Units	141	1	1	141
Delco Units	32	1	2	31
Express Units	45	-	-	45
Pie Five Units	1	-	-	1
International Units	79	2	1	80
Total	<u>298</u>	<u>4</u>	<u>4</u>	<u>298</u>

Three months ended September 26, 2010

	<u>Beginning of Period</u>	<u>Opened</u>	<u>Closed</u>	<u>End of Period</u>
Domestic:				
Buffet Units	151	2	3	150
Delco Units	35	2	3	34
Express Units	49	1	2	48
International Units	77	-	2	75
Total	<u>312</u>	<u>5</u>	<u>10</u>	<u>307</u>

Non-GAAP Financial Measures

We report and discuss our operating results using financial measures consistent with U.S. generally accepted accounting principles ("GAAP"). From time to time we disclose certain non-GAAP financial measures such as the EBITDA presented below. We believe EBITDA is useful to investors as a widely used measure of operating performance without regard to items that can vary substantially depending upon financing and accounting methods, book value of assets, capital structures and methods by which assets have been acquired. In addition, our management uses EBITDA in evaluating the effectiveness of our business strategies and for planning and budgeting purposes. However, this non-GAAP financial measure should not be viewed as an alternative or substitute for our reported GAAP results.

The following table sets forth a reconciliation of net income to EBITDA for the periods shown:

	Three Months Ended	
	September 25, 2011	September 26, 2010
Net Income	\$ 313	\$ 129
Interest Expense	16	10
Taxes	178	81
Depreciation and Amortization	176	428
EBITDA	<u>\$ 683</u>	<u>\$ 648</u>

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operating activities and our credit facilities.

Cash flows from operating activities generally reflect net income adjusted for certain non-cash items including depreciation and amortization, changes in deferred tax assets, share based compensation, and changes in working capital. In the three month period ended September 25, 2011, cash provided by operating activities was \$0.1 million compared to cash provided by operating activities of \$0.3 million in the comparable period for the prior year. This \$0.2 million decrease in cash provided by operating activities consisted of a \$148,000 reduction in cash from changes in operating assets and liabilities and a \$37,000 decrease in net income adjusted for non-cash items.

Cash flows from investing activities generally reflect capital expenditures for the purchase of Company assets. The Company used cash of \$0.1 million for the three month period ended September 25, 2011, primarily for new Company stores that will open in the Dallas/Fort Worth, Texas area. This compares to cash used by investing activities of \$0.5 million during the in the prior fiscal year attributable to a store that opened in Fort Worth, Texas.

Cash flows from financing activities generally reflect changes in the Company's borrowing during the period. Net cash used for financing activities was \$0.1 million for the three month period ended September 25, 2011 compared to net cash provided by financing activities of \$0.3 million for the comparable period in the prior fiscal year.

Management believes that future operations will generate sufficient taxable income, along with the reversal of temporary differences, to fully realize the net deferred tax asset of \$0.8 million without reliance on material non-routine income.

On January 11, 2010, the Company entered into a Loan Agreement with Amegy Bank National Association (“Amegy”) providing for a \$2.0 million revolving credit facility (with a \$250 thousand letter of credit subfacility) and a \$1.0 million term loan facility. On January 10, 2011, the Company and Amegy entered into a First Amendment to Loan Agreement increasing the Company's term loan facility and amending certain other provisions of the Loan Agreement. On October 26, 2011, the Company and Amegy entered into an Amended and Restated Loan Agreement further increasing the Company's term loan facility and amending certain other provisions of the Loan Agreement. As amended, the Amegy credit facility provides a \$2.0 million revolving credit facility (with a \$250 thousand letter of credit subfacility) and a \$4.0 million term loan facility, in addition to \$0.7 million in existing term loans.

The Company may borrow, repay and reborrow under the Amegy revolving credit facility through January 11, 2013, at which time all amounts outstanding under the revolving credit facility mature. Availability under the revolving credit facility is limited by advance rates on eligible inventory and accounts receivable. Interest on indebtedness from time to time outstanding under the revolving credit facility is computed at Amegy's prime rate and is payable monthly. A commitment fee of 0.25% per annum is payable quarterly on the average unused portion of the revolving credit facility.

Amegy has agreed to make term loans under the term facility through October 31, 2012. Advances for such term loans are limited by a percentage of the costs of equipment and leasehold improvements for new restaurant locations of the Company and may not be reborrowed after repayment. Interest only is payable monthly on each term loan for up to 120 days after the initial advance. Thereafter, each term loan is payable in 36 equal monthly installments of principal plus accrued interest. Interest on each term loan accrues at Amegy's prime rate plus 1% or, at the Company's option, a fixed rate determined by Amegy. A fee of 0.5% of the total term loan facility was paid at closing.

The obligations of the Company under the Loan Agreement are guaranteed by each of the subsidiaries of the Company and are secured by a pledge of all of the stock of such subsidiaries as well as security interests in substantially all of the assets of the Company and its subsidiaries including, but not limited to, accounts receivable, inventory and equipment. The Amended and Restated Loan Agreement contains various affirmative covenants which, among other things, require the Company to provide Amegy with certain financial statements, compliance statements, reports and other information. The Amended and Restated Loan Agreement also contains various negative covenants which, among other things, require the Company to maintain certain financial ratios and restrict the ability of the Company to engage in certain activities. The Company is in compliance with all covenants as of the reporting date. If an event of default occurs under the Amended and Restated Loan Agreement, Amegy may terminate all commitments under the credit facilities and declare all unpaid principal, interest and other amounts owing under the credit facilities to be immediately due and payable. As of September 25, 2011 the balance on the term loan facility was \$0.7 million with an interest rate of 6% and the balance on the revolving credit facility was zero with an interest rate of 5%.

Management believes the cash on hand combined with cash from operations and available credit facilities is sufficient to fund operations for the next 12 months.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company's management to make estimates and assumptions that affect our reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent liabilities. The Company bases its estimates on historical experience and various other assumptions that it believes are reasonable under the circumstances. Estimates and assumptions are reviewed periodically. Actual results could differ materially from estimates.

The Company believes the following critical accounting policies require estimates about the effect of matters that are inherently uncertain, are susceptible to change, and therefore require subjective judgments. Changes in the estimates and judgments could significantly impact the Company's results of operations and financial condition in future periods.

Accounts receivable consist primarily of receivables generated from food and supply sales to franchisees and franchise royalties. The Company records an allowance for doubtful receivables to allow for any amounts which may be uncollectible based upon an analysis of the Company's prior collection experience, general customer creditworthiness and the franchisee's ability to pay, as reflected by the franchisee's sales and operating results, and other general and local economic trends. Actual realization of accounts receivable could differ materially from the Company's estimates.

Inventory, which consists primarily of food, paper products and supplies primarily warehoused by the Company's third-party distributors, is stated at lower of cost or market, with cost determined according to the weighted average cost method. The valuation of inventory requires us to estimate the amount of obsolete and excess inventory. The determination of obsolete and excess inventory requires us to estimate the future demand for the Company's products within specific time horizons, generally six months or less. If the Company's demand forecast for specific products is greater than actual demand and the Company fails to reduce purchasing accordingly, the Company could be required to write down additional inventory, which would have a negative impact on the Company's gross margin.

As of June 24, 2007, the Company had recorded a valuation allowance based on its assessment that the realization of a portion of its net deferred tax assets did not meet the "more likely than not" criterion under the authoritative guidance on "Accounting for Income Taxes." The entire valuation allowance was released in fiscal 2008. As a result, the effective tax rate for fiscal 2011 is estimated to be 34%.

The Company assesses its exposures to loss contingencies, including legal matters, based upon factors such as the current status of the cases and consultations with external counsel and accrues a reserve if a loss is judged to be probable and can be reasonably estimated. If the actual loss from a contingency differs from management's estimate, operating results could be impacted.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required for a smaller reporting company.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information it is required to disclose in the reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, including the Company's principal executive officer and principal financial officer, or persons performing similar functions, have evaluated the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company's principal executive and principal financial officers, or persons performing similar functions, have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. During the most recent fiscal quarter, there have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In July, 2008, the Company filed a complaint against a former franchisee that had operated one restaurant in the Sherman, Texas market from 2003 to 2008 for breach of contract, misappropriation of trade secrets and trademark infringement. The former franchisee filed a counterclaim alleging racial discrimination, retaliation and breach of contract. The case went to trial in June, 2010 and the Company prevailed on its breach of contract, misappropriation of trade secrets and trademark infringement claims and successfully defended against the racial discrimination allegation, but was unsuccessful in defending the retaliation claim. Both parties submitted post-trial briefings for recovery of interest, attorneys' fees and costs and recovery of statutory damages. In March, 2011, the Court entered its Order on the issues submitted in the post-trial briefings and entered a final net judgment against the Company for \$255,183. In April, 2011, the Company filed additional motions with the Court to set aside the jury's findings on several grounds and to amend the Court's award of attorneys' fees. In May, 2011, the former franchisee filed his response to the Company's motions and subsequently the Company filed its response. On May 24, 2011 the judge rejected the motions filed by the Company and the Company subsequently filed an appeal with the Fifth Circuit U.S. Court of Appeals. In August, 2011, the Company fully and finally settled the matter for a cash payment less than the judgment amount and the parties exchanged mutual releases.

The Company is subject to other claims and legal actions in the ordinary course of its business. The Company believes that all such claims and actions currently pending against it are either adequately covered by insurance or would not have a material adverse effect on the Company's annual results of operations, cash flows or financial condition if decided in a manner that is unfavorable to the Company.

Item 1A. Risk Factors

Not required for a smaller reporting company.

Item 2. Unregistered Sales of Equity Securities and the Use of Proceeds

On May 23, 2007, the board of directors of the Company approved a stock purchase plan (the "2007 Stock Purchase Plan") authorizing the purchase of up to 1,016,000 shares of the Company's common stock in the open market or in privately negotiated transactions. On June 2, 2008, the Company's board of directors amended the 2007 Stock Purchase Plan to increase the number of shares the Company may repurchase by 1,000,000 shares to a total of 2,016,000 shares. On April 22, 2009, the board of directors further amended the 2007 Stock Purchase Plan by increasing the aggregate number of shares the Company may repurchase by 1,000,000 shares to a total of 3,016,000 shares. The 2007 Stock Purchase Plan does not have an expiration date. There were no stock purchases in the three months ending September 25, 2011. As of September 25, 2011, up to an additional 848,425 shares could be purchased under the 2007 Stock Purchase Plan.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. (Removed and Reserved)

Item 5. Other Information

Not applicable.

Item 6. Exhibits

3.1 Articles of Incorporation (filed as Exhibit 3.1 to Form 8-K filed on September 23, 2011 and incorporated herein by reference).

3.2 By-laws (filed as Exhibit 3.1 to Form 8-K filed on September 23, 2011 and incorporated herein by reference).

10.1 Amended and Restated Loan Agreement dated October 26, 2011, between Pizza Inn Holdings, Inc. and Amegy Bank National Association (incorporated by reference to Exhibit 10.1 to Form 8-K filed October 31, 2011).

31.1 Rule 13a-14(a)/15d-14(a) Certification of Principal Executive Officer.

31.2 Rule 13a-14(a)/15d-14(a) Certification of Principal Financial Officer.

32.1 Section 1350 Certification of Principal Executive Officer.

32.2 Section 1350 Certification of Principal Financial Officer.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Charles R. Morrison, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Pizza Inn Holdings, Inc. (“the Registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the Registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the Registrant’s internal control over financial reporting that occurred during the Registrant’s most recent fiscal quarter (the Registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant’s internal control over financial reporting; and
5. The Registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant’s auditors and the audit committee of the Registrant’s board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant’s ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant’s internal control over financial reporting.
